# Working with Local Legislators

**Matt Hotzler**  
Manager

"All politics is local." This observation by the late Thomas P. "Tip" O'Neill, Jr., former Speaker of the House of Representatives, means that even national politics have a local impact, and people care most about issues that directly affect them. Indirectly, this famous adage underscores the importance and value of local politics.

At H-D Electric, we think it's critical to develop and cultivate relationships with legislators because they craft, introduce and vote on legislation that impacts the local business climate and quality of life for our community. After all, our purpose is to provide safe, reliable, affordable energy, but our mission is to safely enhance the quality of life for our members, employees, and communities.

H-D Electric is a local business that powers economic development and prosperity for our region. As a cooperative, we have deep roots here, and we listen closely to our members to better understand the needs of the community. Our leadership, board members and employees live and work right here in the area.

We strive to be an advocate for our community, ensuring that legislators know, understand, and act on the issues that are important to our area.

## **Providing industry guidance and expertise**

As a practical matter, we recognize that most legislators are "generalists," yet they vote on a wide range of issues. Their expertise may not include the changing energy industry, which is why H-D Electric and other electric cooperatives provide guidance and expertise from subject matter experts who've been in the energy industry for many years.

Today's energy landscape is an increasingly complex topic covering not only the traditional

engineering and vegetation management aspects of the industry but also encompasses technology, cybersecurity, the electrification of the transportation sector and more.

Our experts provide briefings and backgrounders to legislators, committees and staff, and we offer expert testimony for hearings and other legislative or regulatory meetings or gatherings. And because we're involved in economic development and we know local community leaders, we can provide insight on how issues and policies under discussion might impact our region.

## **Representing your best interests**

We strive to be a trusted resource on energy issues. Because of our deep roots in the community, we have an understanding of local issues and needs. We will continue looking after the long-term interests of our member-owners. This means we can cultivate and foster positive, productive relationships with legislators who know and trust us because we're advocating on behalf of the community we serve.

We're proud to power your life and bring good things to the community. We hope you'll continue to advise H-D Electric Cooperative on matters of importance so we can continue to advocate on your behalf and improve the quality of life for all.

We continued to have great weather for an electric cooperative. So far, the little cold weather has meant we have been able to continue to finish up line construction and maintenance projects requiring in-ground digging. I expected by the second week of December the weather and frost will cause us to be done with underground construction and we will be onto annual line patrol to look at our equipment. This will also stop our wiring crew from digging and leave them to do projects inside or above ground.

Here's wishing you and your family the very best in 2022.

## COOPERATIVE CONNECTIONS

### H-D ELECTRIC

(USPS No. 018-905)

**General Manager:** Matt Hotzler

**Headquarters Employees:**

Annie Aberle – Finance and

Administration Manager

Michelle Prins – Billing Clerk

Heidi Brewer-Grimlie –

Accounting Clerk

Jami Bolden – Receptionist/Cashier

Roger Cutshaw – Engineer

Darren Matthies – Building

Property Worker

**Operations:**

Troy Kwasniewski – Operations  
Manager

Todd Sprang – Line Foreman

Line Crew:

Pat Kirby – Operations Support

Joe Raml – Lead Lineworker

Cody Scarrott – Lineworker

Derek Bille – Lineworker

Kevin Holida – Lead Lineworker

Matt Miller – Equipment Operator/  
Mechanic

Joseph Jordan Jr. – Apprentice Lineworker

Eric Page – Apprentice Lineworker

Todd Moritz – Clear Lake

H-D ELECTRIC COOPERATIVE CONNECTIONS is published monthly by H-D Electric Cooperative, Inc., PO Box 1007, 18240 SD Hwy 15, Clear Lake, SD 57226-1007 for its members. Families subscribe to H-D Electric Cooperative Connections as part of their electric cooperative membership. H-D Electric Cooperative Connections' purpose is to provide reliable, helpful information to electric cooperative members on matters pertaining to rural electrification and better rural living. H-D Electric Cooperative is an equal opportunity provider and employer.

Subscription information: Electric cooperative members devote 50 cents from their monthly electric payments for a subscription. Nonmember subscriptions are available for \$12 annually. Periodicals Postage Paid at Clear Lake, S.D., and at additional mailing offices.

POSTMASTER: Send address changes to: H-D Electric Cooperative Connections, PO Box 1007, Clear Lake, SD 57226-1007; telephone (605) 874-2171; toll-free 1-800-358-7233; fax (605) 874-8173; e-mail info@h-delectric.coop  
Design assistance by SDREA.

# Apply for Basin Electric and H-D Electric Scholarship

H-D Electric Cooperative will award **one \$1,000** scholarship and **two \$500** scholarships. To be eligible, you must be a dependent of a member. One of these scholarships will give preference to a student in an electrical/energy related field. Applications are available and must be completed and returned to H-D Electric by **February 14, 2022**.

Recipients will be chosen according to criteria such as SAT/ACT scores, overall grade point averages, work experience, participation in school and community activities, a personal statement of career goals and a written recommendation by a third party. Only the applications which provide all of the above information will be considered, so it is important to read the application thoroughly and complete every detail.

The applicant must be a student who is enrolled or planning to enroll in a full-time graduate or undergraduate course of study at an accredited, two year or four year college, university or vocational/technical school.

To apply, you must complete the required criteria and the scholarship application, which can be obtained from local high school guidance counselors, calling H-D Electric at 605-874-2171 or 800-358-7233, writing H-D Electric, PO Box 1007, Clear Lake, SD 57226 or via our web site at [www.h-delectric.coop](http://www.h-delectric.coop).

Applications must be completed and returned to the office of H-D Electric by **February 14, 2022**.

# Crunch the numbers on New Year's savings in your home

If your New Year's resolution to spend less and save more always fizzles out by March, don't fret. With a few simple adjustments in your house, you can save money on your energy bill each month. Here's how:

- Save up to 20 percent on heating by installing a programmable thermostat and setting it to automatically lower the heat when you leave the house for more than five hours and when the family goes to bed for the night.
- Save 1–3 percent on heating costs for each degree you turn the thermostat down. For optimal savings, set the thermostat at 68 degrees while at home and 65 degrees at night and before you leave the house for an extended period.
- Save up to 20 percent on heating and cooling bills by sealing air leaks around doors and windows with caulk and weatherstripping. This inexpensive energy saver will pay for itself within a year.
- Save at least 25 percent on air conditioning when you replace your old, inefficient central AC with one that has a seasonal energy-efficiency ratio of 14 or higher.
- Save up to 40 percent on what you spend to run your refrigerator by replacing an old unit with a new Energy Star-certified model.
- Save more than 50 percent on energy for cooking when you use a microwave oven instead of a conventional oven to heat meals.
- Save more than 10 percent on your water heating bill by lowering the water heater temperature from 140 degrees to 120.
- Save 75 percent or more on energy for lighting by replacing incandescent bulbs with LED bulbs. They also last about 25 times longer. Switching out CFLs for LEDs will reduce lighting costs as much as 50 percent.
- Consistently turning off lights when not in use or when natural light is sufficient can reduce lighting expenses 10–40 percent.
- Enable the power management function on computers and sleep setting on appliances.

## CO-OPS IN ACTION

South Dakota's electric cooperatives deliver affordable, reliable power to our members in every corner of the state. But we do so much more!

Visit our Co-op Connections Plus YouTube channel and you'll see co-ops in action at local community events, youth leadership programs and charitable fundraising events like the annual Line Patrol Charity Ride. We've got South Dakota covered!

Simply scan the QR code to the right and be sure to subscribe!

## Keep out of power boxes

### Trinity Kurtenbach

Trinity knows that those green “power boxes” that are often seen near homes or along roadways contain electrical equipment that can pose a hazard. Trinity is the child of Cory Kurtenbach and Tonya Buchholz-Froehlich of Nunda and attends Sioux Valley Elementary in Volga. They are members of Sioux Valley Energy.

Kids, send your drawing with an electrical safety tip to your local electric cooperative (address found on Page 3). If your poster is published, you'll receive a prize. All entries must include your name, age, mailing address and the names of your parents. Colored drawings are encouraged.

# SOUPS FOR THE SOUL

## SMASHED POTATO SOUP

### Ingredients:

1/2 cup coarsely chopped carrot  
1/2 cup coarsely chopped celery  
1 pkg 14 oz refrigerated mashed potatoes  
1 14.5 oz can chicken broth  
1/2 cup milk  
1 garlic clove pressed  
1/4 tsp salt  
1/8 tsp pepper  
1/2 cup sour cream  
2 Tbsp fresh parsley

### METHOD

Place mashed potatoes in medium saucepan. Gradually add broth and milk, whisking until mixture is smooth. Stir in carrot, celery, garlic and salt and pepper. Bring to a boil; reduce heat and simmer, uncovered, 10 minutes. Remove from heat; stir in sour cream and parsley. Top with desired toppings. 4 servings; 5 cups. Optional toppings: sliced green onion, shredded cheddar cheese, cooked, crumbled bacon.

**Becki Hausser, Tripp**

## CREAMY CHICKEN GNOCCHI SOUP

### Ingredients:

6 Tbsp butter  
2 Tbsp olive oil  
2 cups onion  
1 cup diced celery  
4 garlic cloves (minced)  
1/2 cup all-purpose flour  
4 cups half and half  
1 (32 oz) container chicken broth (add more for a thinner soup)  
1 Tbsp thyme  
2 cups carrots  
2 cups spinach or kale  
3 cups diced, cooked chicken  
2 (16 oz) packages potato gnocchi  
Salt and pepper to taste

### METHOD

Add butter and olive oil to large pot over medium heat. Sauté onions, celery, and garlic until tender. Add flour to create a roux and stir for one minute. Slowly add the half and half and chicken broth. Stir until it thickens. Add the thyme, carrots, spinach, chicken and gnocchi. Cook for 5-10 minutes until gnocchi is cooked and soup thickened. If soup gets too thick just add more chicken broth. Salt and pepper to taste.

**Tracey Burkett, Olivet**

## CHICKEN NOODLE SOUP

### Ingredients:

1-1.5 lbs chicken thighs bone in or boneless (skinless)  
3 bay leaves  
5 peppercorns, whole  
1 small whole onion peeled, hairy end intact  
3 large garlic cloves  
12 cups chicken stock low sodium  
2 large carrots diced  
2 cups potatoes diced  
1 1/2 cups egg noodles or any short pasta  
1 1/2 tbsp salt  
1 tbsp olive oil  
3 tbsp fresh dill, parsley or green onion finely chopped

### METHOD

In a large Dutch oven or pot, add chicken thighs, bay leaves, peppercorns, onion, 2 garlic cloves and stock. On high heat, bring soup to a boil covered then move lid to the side a bit to keep soup clear. Cook for 20 minutes, removing foam as it rises to the top with a mesh strainer. Dice potatoes and carrots. Chop dill and grate garlic. Add potatoes and carrots, stir and reduce heat to medium. Cook with half lid open for 5 minutes. Add pasta, stir and cook for another 5 minutes. Discard onion, bay leaves and peppercorns with mesh strainer. Add salt, olive oil, grated garlic clove, dill and ground black pepper to taste. You can also shred chicken right in the pot. Let sit covered for 5 minutes.

**ifoodreal.com**

Please send your favorite soup recipes to your local electric cooperative (address found on Page 3). Each recipe printed will be entered into a drawing for a prize in December 2022. All entries must include your name, mailing address, phone number and cooperative name.

# Do energy-saving measures in my home make a big difference?

**Miranda Boutelle**  
Efficiency Services  
Group

For the average household, it depends on your home's efficiency and your habits. Your energy use is based on your home's equipment and how you use it. You might already have an efficient home and good energy use habits, or you might have room for improvement.

Energy keeps us comfortable in our homes, and our monthly bill is the associated cost for this energy use. To make energy-saving measures work in your home, it comes down to preventing energy waste while maintaining personal comfort in your home.

Let's take it back to the basics and see if we can find opportunities to save energy in your home. Filters, LEDs and thermostat settings are great places to start.

### REPLACE FILTERS

If your home has a forced-air system, you have a filter. The filter needs to be checked regularly and replaced when it's dirty. A dirty filter can cause heating and air-conditioning systems to use 15 percent more energy, according to the U.S. Department of Energy (DOE).

Since heating and air conditioning make up almost half of your energy use, replacing your filter when it looks dirty is a habit that can reduce energy waste.

### UPGRADE TO LEDS

Upgrading your lighting to LEDs is a simple, low-cost way to cut energy use. Depending on your budget, you can do it all at once or change bulbs out over time. If you are going to replace a few at a time, prioritize the lights you use the most.

There are many LED options available. One major variation is the color temperature, which is listed on the packaging in Kelvin.

I recommend 2700K because it is similar to incandescent lighting. I also suggest ENERGY STAR®-rated products because they meet strict quality and efficiency standards, use up to 90 percent less energy and last 15 times longer than standard bulbs.

### ADJUST YOUR THERMOSTAT

It's amazing how much difference a few degrees can make. By adjusting your thermostat to your home habits, you can save year-round on heating and cooling costs.

For winter months, the DOE recommends setting your thermostat to 68 degrees when you are home and dialing it back 8 to 10 degrees when you leave the house or go to sleep. For summer, the recommendation is 78 degrees when you are home and 8 to 10 degrees warmer when you are away. Using a programmable or smart thermostat will allow you to set it according to your schedule.

Making these small changes in your routine will help improve your energy efficiency while maintaining comfort in your home.

Alex Cruz, Cheryl and Richard Skorupski, and Biana Garcia are shown at the El Corral restaurant in Clark.

## Flyover County: Rick Skorupski spins tales of life in small town America

Billy Gibson

[billy.gibson@sdrea.coop](mailto:billy.gibson@sdrea.coop)

A place where folks wave with all five fingers.

A community where people actually listen to your response after asking how you're doing.

A home no closer than 10 miles to the nearest stop light.

Those were the requirements Rick Skorupski established when he decided he'd had enough of his native New Jersey and went looking for a more tranquil place to spend his retirement years. After conducting some extensive research, he and his wife Cheryl landed south of Frankfort nearly 20 years ago and have enjoyed the slower pace of life on their hobby farm in rural South Dakota.

While the Skorupskis have developed a wide social network and even recruited other family members to settle in Spink County, the acculturation process didn't go very smoothly at first. Turns out some folks in the community were convinced the Skorupskis were operating in a shroud of secrecy.

"They thought we were in the witness protection program," Rick recalls with a hearty chuckle. "Some of the neighbors offered to help us move our furniture in, and we declined, just trying not to be a bother. And then we'd make trips

back to New Jersey, so people started wondering what we were hiding."

But the suspicions didn't last long and the Skorupskis have been heavily involved in the local scene, participating in charitable projects, supporting civic events and contributing to the community in positive ways.

The Skorupskis' fondness for the people and culture of South Dakota is on full display in the six novels the two have published together with Rick as the writer and Cheryl the cover artist.

Rick, a member of Northern Electric and a U.S. Navy retiree, describes his self-published work as "nice stories about nice people." He got frustrated at all the anger, violence, sensationalism and negativity reflected in the media, so he decided to accentuate the positive aspects of life through his writing.

Inspired by those he befriended in his adopted home state, Skorupski produced a series of novels centered around an imaginary South Dakotan community called Helen (pop. 350 souls) located in fictitious Flyover County.

The plot lines involve local citizens, their shared hard-scrabble history as pioneers, settlers and sodbusters, and their interactions that take place in the tiny hamlet's schools, churches, diners, taverns and shops.

"I love my imaginary town and I feel I

know all the characters," Rick said. "I get up every morning and write what they tell me about their lives. Any time I have writer's block, it's because my imaginary friends stopped talking to me. But in the end, I hope my readers enjoy these stories as much as I enjoy writing them."

Skorupski was invited to participate in an exhibit at last year's South Dakota State Fair as part of the "Arts of the State Fair" program. During the event, he conversed with readers, discussed his characters, signed copies of his books and offered advice about his experience in self-publishing.

His books are sold through Amazon, and more information can be found by visiting [www.flyovercounty.com](http://www.flyovercounty.com).

# FUN AND FITNESS ON THE SNOW

An estimated 5.2 million Americans participate in cross country skiing while reaping the rewards of being active during the winter months.

## Nordic Ski Club promotes the benefits of cross country skiing on mind, body and soul

**Billy Gibson**

[billy.gibson@sdrea.coop](mailto:billy.gibson@sdrea.coop)

Many winter sports enthusiasts are firm in their belief that snow skis are meant to travel in one direction only – downhill.

But members of the Black Hills Nordic Ski Club use their skinny skis to take them wherever the trail may lead.

The club's winter playground is located at Big Hills XC Trails seven miles southwest of Spearfish where its

members have frolicked in the snow since the 1970s. Early prospectors named the area after they encountered steep grades in their pursuit of gold and fortune, but these days people flock to Big Hill for fitness and fun.

With more than 1,200 Facebook followers, the group invites not only cross country skiers to enjoy the 13.6 miles of trails but also skate skiers, fat bikers, snow shoers and even snow man makers.

Immediate past president Josh Wangeman explains there are an

estimated 5.2 million Nordic skiing enthusiasts throughout the country who seek both physical and mental health restoration along the trails.

After spending his day teaching science to his eighth graders at Spearfish Middle School, Wangeman likes to unwind in the woods.

"I've found that it's a good way to escape the crowds and participate in the wonders of nature," he said. "It's a great sport if you're looking to find some solace, enjoy the outdoors and get a good workout at the same time."

Wangeman, who also enjoys swimming and cross country running, fell into the sport after joining the National Guard six years ago. He began training for the biathlon, a competition where skiers travel from check point to check point with a .22 caliber rifle and shoot at targets. He has represented the Guard at competitions in Minnesota, Wyoming, Vermont and Utah.

Like many outdoor activities, cross country skiing has seen a significant surge in interest in the past year. One of the top attractions of the sport is that the cost of entry is relatively small. For instance, a quality mountain bike can cost thousands of dollars and other pastimes require a substantial financial investment for equipment, gear, fees and more.

"You can find some used gear and get everything you need for around \$100, or \$300 for new equipment," he said. "Trail access is free and you'll be outdoors getting some great exercise. As far as learning the technique, it's a straightforward process that's almost as simple as walking."

Wangeman said skiing across the snowy terrain can be a cinch compared to the work that's required to keep the trails maintained. Members of the Nordic Ski Club join forces with the Grooming Alliance of

Cross country skiers receive both the mental and physical health benefits of a sport that's economical to pursue.

Spearfish and log hundreds of hours of labor and donate hundreds of dollars each season to keep the pathways well-groomed for all to share. Some trails are designated for snow shoeing and fat biking only. Volunteers have also built a warming shelter in a meadow that's situated among the five loop trails where skiers can take a break from the wind and cold.

Aside from the Big Hills XC Trails, the Black Hills National Forest area has other sites suitable for cross country skiing. The Eagle Cliff Network is located 15 miles southwest of Lead and offers 20 miles of trails that cross open meadows and meander through Ponderosa pine forests. Half the trails are rated "difficult."

Bear Mountain is situated 10 miles

southwest of Hill City and features rocky ridges, abundant wildlife and scenic overlooks along its 16-mile trail system.

Additional pathways in the area can be found at Beaver Creek, Bear Butte State Park, Custer State Park and portions of the Centennial and Mickelson Trails.

Here are a few helpful tips for those who are thinking about taking to the wintry trails:

1. Start your day right with a hot beverage.
2. Pack well, and don't forget gloves, hat and extra socks. Layer, layer, layer.
3. Choose the right place to ski with good grooming and a reasonable and amount of flat terrain.
4. Consider taking lessons to

### Cross country skiing sites

These state parks offer trails for cross-country skiers to enjoy:

- Adams Homestead and Nature Preserve
- Beaver Creek Nature Area
- Big Sioux Recreation Area
- George S. Mickelson Trail
- Hartford Beach State Park
- LaFramboise Island Nature Area
- Lake Herman State Park
- Lake Poinsett Recreation Area
- Newton Hills State Park
- Oakwood Lakes State Park
- Pelican Lake Recreation Area
- Richmond Lake Recreation Area
- Sica Hollow State Park
- Walker's Point Recreation Area

Volunteers keep the trails groomed for cross country skiing at Big Hill and also constructed a warming shelter, a popular site on cold and windy winter days.

improve your form.

5. Be prepared to fall. Acquiring balance takes time.

6. Keep your energy up with a ready snack such as a granola bar or an apple.

7. Have fun. Explore a bit and lose yourself in the rhythm of the sport.

8. Don't forget to look around you, and keep an eye out for wildlife or scenic vistas.

9. Reward yourself! You worked hard and did something adventurous.

## What are the Responsibilities of Your Cooperative Director?

As the opportunity draws near to elect your director representatives, it is an appropriate time to think about the role of a cooperative director, their responsibilities and the dedication it takes to fulfill this important role.

The elected director of the cooperative provides an important and necessary link between the member and those that are hired and paid to carry out the day-to-day activities of the cooperative. The director serves as an extension of the rights and responsibilities of the cooperative member. Joining with the other directors of the cooperative, they try with honesty, consistency, and good conscience to make decisions and set policies which are in the best interest of the cooperative and the members as a whole.

A director should establish communication with the members they represent. They need to understand their concerns and issues and welcome the member's opinions. A director is expected to read and be familiar with information, data and reports relating to their cooperative, along with state and national associations.

The responsibility of being a cooperative director requires a dedication and willingness to spend a possible 25 to 30 days each year in meeting these responsibilities. This commitment itself means a director is expected to attend regular monthly board meetings, which are typically held on the third Friday of each month and often lasts most of the day. It also requires attending the annual meeting and other periodic special meetings as needed.

Directors are encouraged to attend director seminars and training which help broaden the ability to make informed decisions on the issues facing the cooperative. These seminars may have topics on matters relating to financing, electric rates, power requirements, legal risk and regional and national issues of concern to rural electric members.

Outside meeting activities involve East River Electric Power Cooperative, South Dakota Rural Electric Association, Basin Electric Power Cooperative, National Rural Electric Cooperative Association and the Cooperative Finance Corporation. These co-op organizations and associations are all run by member representatives. Members of the H-D Electric board may be selected to be directors on these boards to represent the co-op and take part in the decisions made on behalf of those organizations. This is part of our cooperative system. Participation on these boards not only requires a dedication of time, it also requires the director to be knowledgeable on a wide range of state and national issues.

With the annual meeting coming up on March 22, 2022, please give some thought to the election of your representative on the board of H-D Electric. Think about what it takes to make the decisions required of them and the time they must spend to be prepared to make those decisions that will affect the whole cooperative.

## 2022 H-D Electric Director Election

H-D Electric director elections will be held at H-D Electric's annual meeting on **March 22, 2022**. The annual meeting this year will be at Hamlin Education Center in Hayti, S.D.

Director nominations are by petition only. Petition forms are available at the H-D Electric office and must be signed by at least fifteen memberships, (individuals of joint memberships count as one membership). Petitions will be available after **January 6, 2022** and must be returned to the office by **February 25, 2022**. However, because of publication deadlines, in order to have the candidate profile published in the March Cooperative Connections annual meeting report magazine, petitions should be submitted at or prior to **February 1, 2022**.

### Three director districts for this year are:

- **District 1** including the following townships: Brandtford Township, Oxford Township and Opdahl Township, Hamlin County, S.D.; and Kampeska Township, Codington County, S.D.
- **District 2** including the following townships: Hayti Township, Florence Township and Castlewood Township, Hamlin County, S.D.
- **District 6** including the following townships: Lowe Township, Antelope Valley Township, Glenwood Township and Herrick Township, Deuel County, S.D.; Adams Township, Grant County, S.D.; and Mehurin Township, Lac Qui Parle County, Minn.

# CAR DEALERS ADAPT TO EV MARKET

Jesse Johnson of Jan Busse Ford in Highmore keeps customers informed of the latest industry news. *Photo by Billy Gibson.*

## Car dealers adapt to emerging EV industry by making new investments and keeping their customers informed

**Billy Gibson**

billy.gibson@sdrea.coop

Keeping up with the emergence of the electric vehicle market is like listening to the hushed intonations of the announcer at the end of a 1960s-style soap opera.

Will a reliable charging network be constructed?

Will EVs become more affordable?

Will drivers ever overcome their range anxiety?

Will the political winds change direction?

Tune in tomorrow. Same time. Same channel.

Scott Shepherd is no fan of soap operas, but he's happy to give you his take on the topic. Shepherd is a career educator who has taken the EV leap and last June invested in Ford's debut model: the Mustang Mach-E. Shepherd recently delivered a presentation

describing his experience and insights to a group of electric cooperative representatives.

Subtitled "The Good, the Kind of Bad, and the Ugly," the presentation was intended to be an unbiased, unvarnished and apolitical analysis of the investment he made last year. Though Shepherd admits to being somewhat of an EVangelist, audience members were eager to hear Shepherd's comments to help them convey useful, accurate information to their electric cooperative consumers back in their respective service areas.

On the positive side, Shepherd said the advanced technology and the instant torque of his Mach-E deliver an exciting driving experience, and he likes doing his part to reduce emissions. His dealer, Jesse Johnson at Jan Busse Ford (Pioneer Garage, Inc.) in Highmore, was knowledgeable and ready to answer all of his questions and concerns. He noted

that factoring in a federal tax credit of up to \$7,500, he was able to save nearly \$1,000 in his first 5,000 miles of travel in the Mach-E.

"There's no gas tank to fill at over \$3 per gallon and no oil to change," he said. "A trip to Sioux Falls cost me \$6 in electricity, compared to \$49 in gas for an ICE (internal combustion engine)."

**250**

number of EV  
charging stations  
throughout the  
Upper Midwest.

On the not-so-good side, Shepherd pointed to the high front-end purchase price, reduced range during the winter months, the lack of Level 2 chargers in homes and the fact that traditional vehicles sometimes block access to public charging stations. He said in the rush to build out a reliable system of charging stations throughout the region,

standardized practices have yet to be developed.

“There can be a lot of inconsistent pricing with public charging stations,” he said. “Some require a connection fee plus a per-minute fee as high as 50 cents per kilowatt hour. The networks and the number of phone apps that are out there can be confusing, and I’ve also run across some charging stations that were malfunctioning.”

He pointed out that electric cooperatives, municipal utilities and investor-owned utilities in South Dakota and Minnesota are working together to create a charging network for public use that will reduce range anxiety for EV drivers. Presently, there are nine Tesla supercharger stations and four non-Tesla chargers in South Dakota, as well as more than 250 throughout the region and dozens more for the use of guests at hotels, campgrounds and other private properties.

Electrify America Fast recently announced the company is planning to install a bank of supercharging stations in Wall sometime in January, and state officials are looking to continue to invest money into light-duty charging stations from the second round of the Volkswagen Electric Vehicle Charging Station Program.

Johnson, Shepherd’s sales agent, said these days he’s getting lots of questions from scores of potential buyers who are ponying up the \$100 refundable

fee at [www.ford.com](http://www.ford.com) to get placed on a waiting list for not only the Mach-E but also the new Ford F-150 Lightning, the company’s first electric-powered pick up. In fact, he has a personal spot on the Lightning list along with more than 160,000 others across the country. Tesla, GMC, Rivian and Chevrolet are also introducing their own pick ups.

“We’re getting calls from all kinds of people - retirees, commuting moms and dads, gear heads, collectors, technology buffs, environmentalists, farmers, you name it,” said Johnson, who has already sent two early adopting customers home with the Mustang Mach-E and has a third on his lot.

Johnson said car and truck dealers will have to redouble their efforts to provide service after the sale as the EV industry continues to emerge. He keeps his customers, including the many who are on the purchaser’s waiting list, apprised of any new developments

## DEALING WITH EVs

in the market. For example, when manufacturers began recommending that owners refrain from exceeding an 80 percent charge - unless going on an extended trip - to extend the car’s battery life, Johnson made sure his customers got the memo.

In preparing for the transportation future, car dealers are having to make significant investments in education for their sales force, training for technicians and new service and maintenance equipment to accommodate EVs.

“EVs are fun to drive with their immediate torque and safe-driving technology,” Johnson said. “These vehicles are an excellent option for those wanting to forget about the price of gas, reduce maintenance and emissions. We understand they may not fit everyone’s lifestyle, but we see a definite place for them in the future.”

Scott Shepherd is shown above talking with students at the Lake Area Technical College Automotive Technology Program about his experience as an EV owner.

# SHARING A PASSION FOR COMMUNITY THEATRE

Bev Raske (left) and Diane Drager (right) pretend to share a cold one on set. The two have co-directed several shows together.

## Performers in South Dakota and Minnesota express their passion on the community theatre stage

**Emily Costar**

[emily.costar@sdrea.coop](mailto:emily.costar@sdrea.coop)

When you think of theatre, what's the first image that comes to mind? Maybe it's Hamlet, dramatically pondering whether "to be or not to be" with skull in hand and a rapt audience before him. Perhaps you envision a chorus line under the bright lights of Broadway, all high kicks and jazz hands.

Or maybe you think of a packed community hall with the folks up on stage delivering heartfelt moments and big laughs. The cast and crew consists of neighbors, colleagues and family. They're up on that stage, not for widespread acclaim or fortune, but for the love of live performance. This is community theatre.

In Minnesota, the town of Renville is no stranger to the performing arts;

they have the Renville Friends of the Arts organization, founded in 2002 and currently led by self-described "theatre junkie" Bev Raske. She first graced the stage at Renville County West High School in ninth grade for a one-act play, and continues to perform over six decades later.

"We use the same stage I stepped on back then," Raske fondly recalled.

Friends of the Arts tries to do two plays a year, which are held at the high school. Their most recent production was *Clue* this past October. Raske said productions are a "cooperative venture," as they work with the school to coordinate facility use and support other events. Friends of the Arts can't always have the space to rehearse, but that isn't a deal breaker.

"We've done a lot of rehearsing in my basement," Raske said with a chuckle.

It's that can-do attitude that's helped Friends of the Arts successfully apply for grants, such as the one that enabled them to acquire their own sound system, and then new LED lighting for the stage in a joint venture with the school.

It's also the attitude which led Joel Bakker, local farmer and Renville-Sibley Cooperative member-owner, to get involved with Friends of the Arts as an actor. Bakker was quick to applaud Raske's commitment to live theatre, saying, "She's a master of doing plays – she's the one that got me started."

Most recently seen onstage in 2020's *Twisted Christmas Carol*, Bakker has been in 10 plays with Friends of the Arts. As he put it, "I guess I enjoy being goofy in front of people. For some reason I don't have a fear!"

Bakker enjoys being involved because the productions provide folks with good entertainment they can come and see right in their area without having to travel. He also appreciates how close-knit the cast members get during a show, calling them "a second family."

Friends of the Arts also does musicals! One of their most recent productions was *Polyester the Musical*, a disco-style musical comedy.

And good news for those who are interested: Friends of the Arts is looking to expand that family.

“We don’t want to end up being a bunch of gray-haired ladies trying to keep things going,” Raske wryly noted. “We want new people with new ideas.”

And as the organization celebrates its 20th anniversary in 2022, it’s the perfect time for new folks to get involved.

Renville Friends of the Arts isn’t the only community theatre group with an impressive history, though. In South Dakota, there’s the Hayes Drama Club. Hayes itself is a small town of less than 100 people, but each year the community hall gets packed full of people from the surrounding areas, excited to see what the club has in store. And just this past November, the club put on its 68th annual Hayes play.

“We’re the longest continuously running drama club in South Dakota!” Jack Mortenson proclaimed. He recently played Brad St. Clair in this year’s Hayes play, *The One Who Got Away*.

The club’s success shows a distinct passion for community theatre in the area, with many of its actors and volunteers traveling from surrounding areas to be a part of it. Mortenson himself regularly drove over 30 miles to and from Hayes to be in this year’s show. Beyond the dedication of its participants,

there’s a lot of community history in the club as well.

“Three generations of my family have been in the Hayes Drama Club. It’s tradition at this point,” said Mortenson, who has been in three Hayes plays already and is looking forward to future involvement as well.

Auditions for the annual play are usually held a couple months ahead of time at the Hayes Hall. And the audition details, such as time and date, are generally spread through word of mouth. So, if you find yourself wanting to join in on the theatrical fun, it wouldn’t hurt to join the Hayes Community group on Facebook to help stay in the know.

Renville Friends of the Arts and the Hayes Drama Club are just two out of hundreds of community theatre groups scattered across Minnesota and South Dakota. Live theatre is more than just national

For a few nights every year, Hayes Hall gets packed to standing-room only. West Central Electric Cooperative provides the hall’s electrical power and is an annual sponsor of the Hayes play.

tours in big, urban cities. It’s also the folks in your town coming together to deliver a heartfelt production at the local school or community hall just down the road.

So the next time you find yourself in the mood to sit back and have a few laughs, maybe shed a few tears and be immersed in another world for a couple hours – consider checking in on your local theatre group to see what they’ve been up to. You just might be surprised by what your community has in store.

Joel Bakker (center) in a cast photo from his most recent production with Friends of the Arts, *Twisted Christmas Carol*.

Want to get involved and stay up-to-date with Renville Friends of the Arts? Go give their Facebook page a like and follow at: [www.facebook.com/Friends-of-the-Arts-360087927337206](https://www.facebook.com/Friends-of-the-Arts-360087927337206)

To keep up with the latest happenings in Hayes (including the Hayes Drama Club), go join the public Hayes Community group at: [www.facebook.com/groups/144509355581709](https://www.facebook.com/groups/144509355581709)

**61st Annual Black Hills Stock Show and Rodeo**  
**January 28-February 5, 2022**

To have your event listed on this page, send complete information, including date, event, place and contact to your local electric cooperative. Include your name, address and daytime telephone number. Information must be submitted at least eight weeks prior to your event. Please call ahead to confirm date, time and location of event.
